MGA

October News!

I am a little late with sending this out, because like most of us down here we are preoccupied by a little thing called Ian. The executive committee had two openings, and two people applied. Your new executive committee members are John Clay, and John Waterworth.

I will not bore you with details of the hurricane, but if you zoom in on the picture included, there were two temporary hazards on hole 15. A dumpster by the green, and another dumpster by the church pews. Opening day is still temporarily set for Wednesday, November 2nd, pending the course is open by then.

Please look for emails from Joe Burden and your Community Boards as to the progress down here. We look forward to seeing you and making the best of this situation.

Ed Catalano and

Your MGA Executive Committee
